NOTE TO EDITORS

Tintswalo Atlantic boasts an exclusive and unique shoreline location within the protected Table Mountain National Park, situated just outside of Hout Bay off Chapman's Peak drive. The boutique hotel boasts 10 Island Suites as well as the Presidential Suite, which all face the ocean with breath taking views of the Sentinel. The pebbled beach directly in front of the lodge is secluded and sheltered by winds and is one of the boundaries of the Table Mountain National Park, globally known for its extraordinarily rich, diverse and unique fauna, flora and fynbos. Overlooking the beach and steely waters, a heated pool allows for daily dips all year round.
