

---

The blistering heat of the African sun is no match for the protective, cool air conditioning that each room provides, complemented by overhead fans gently cooling the rooms; mosquito nets keep away unwanted insect visitors, and any possible stresses are swiftly attended to by a Tintswalo staff member.

Comfort levels are taken to even greater heights by an en-suite bathroom, an indoor and outdoor shower that leads off from the spacious bathroom and opens out onto the deck, as well as supremely comfortable extra length double or twin beds that will make any guest feel suitably rested under Africa's Milky Way.

A distinctive delight also awaits guests as the lodge overlooks a waterhole that is frequented by large herds of elephant and other wildlife. Unwind from the vantage point of a private plunge pool and deck, and observe the large variety of animals that visit the seasonal river bed, as well as the magnificent sycamore groves in bloom.

Tintswalo's professional and knowledgeable rangers provide valuable information relating to the local wildlife, their natural playground, and insight into the local Shangaan traditions.

For guests who enjoy the occasional adrenalin rush accompanied by pure beauty, hot-air ballooning is an unforgettable experience that provides awe-inspiring views of the natural fauna and flora of the Kruger National Park.

One of the most satisfying aspects of staying at the Tintswalo Safari Lodge is that the schedule can be arranged according to guests' particular needs. As such, visitors get to decide when they would like to take in the early morning game viewing, revel in a scrumptious breakfast in the bush, or delight in al fresco dining or high tea at the lodge.

Tintswalo in the Shangaan language means the intangible feeling of love, gratitude and peace that is bestowed upon someone who has given a meaningful and worthy gift. Once guests have indulged in the luxurious and stress-relieving stay at the Tintswalo Safari Lodge, they will certainly understand the meaning a lot better, and will never view a safari holiday in quite the same way again.
